### ABOUT US

**Dioka Integrated Services Limited** is an indigenous company incorporated in Nigeria with specialization in procurement, warehousing, laboratory and oilfield engineering & support services.

### OUR VISION

To be a leading world class company providing excellent engineering and support services to the oil & gas industry, through technology and innovations.

### OUR MISSION

To provide best in class products and services to our clients in line with industry best practices working in harmony with host communities and in compliance with Health, Safety and Environmental standards.

## OUR CORE VALUES

- EXCELLENCE
- TRUST
- ETHICS
- TEAM WORK
- COMPETENCE
- SAFETY
- TRAINING/MANPOWER DEV
- PASSION FOR CUSTOMER

## OUR ATTRIBUTES

- TIMELY RESPONSE TO ENQUIRIES
- COMPETITIVE PRICING
- EXCELLENT PRODUCT QUALITY
- TIMELY DELIVERY
- CUSTOMER SATISFACTION
- COST EFFECTIVENESS
- SAFETY AT WORKPLACE

## OUR SERVICES

We specialize in the provision of the following category of services:

- Chemicals ( Drilling, Completion, Production, Stimulation & Commodity Chemicals Supply, Engineering and Chemical Related Services)
- Brine Filtration Equipment and Services
- Solids Control Equipment and Services
- Oilfield Equipment & Tanks Rentals Services
- Offshore Support and Engineering Services
- EPIC (Engineering, Procurement, Installation & Commissioning)

## CHEMICALS DIVISION

As a leading oilfield chemical engineering/process improvement company and an authorized alliance partner to Brenntag Export & Deshi Chemicals, we provide on-site technology-driven solutions to oil and gas industries, helping our customers reduce energy, water and other natural resources consumption and minimize environmental releases.

Our goal is to deliver safe and sustainable environmental solutions that create value for our customers in their oil and gas production/processing activities. Through our sales and engineering services, our workforce from diverse professions delivers best in world class satisfaction to our clients.

## CHEMICALS

Our Chemicals group is composed of our oilfield production chemicals, drilling / completion Chemicals and other related businesses. The production chemicals and related services work to improve oil and gas recovery and production, extend production equipment life and decrease operating costs through services such as scale, paraffin and corrosion control, oil & water separation, and gas hydrate management solutions.

Our drilling / completion chemicals group offer drilling chemicals and completion chemicals / engineering services for downhole applications to increase efficiency and the useful life of customer assets, product quality and yields.

Our ultimate goal is to improve customer profitability and competitiveness.

### OUR MAJOR PRODUCTS

- Corrosion Inhibitors
- Anti-foams
- Scale Inhibitors
- Biocides
- Oxygen scavengers
- Hydrogen sulfide scavengers
- Hydrate Inhibitors
- Cleaning compounds/Utility chemicals
- Paraffin / Asphaltene inhibitors
- Utility chemicals
- Demulsifiers
- Cleaning compounds / degreasers
- Water Clarifiers, etc

We apply and evaluate the performance of these chemicals for our clients.

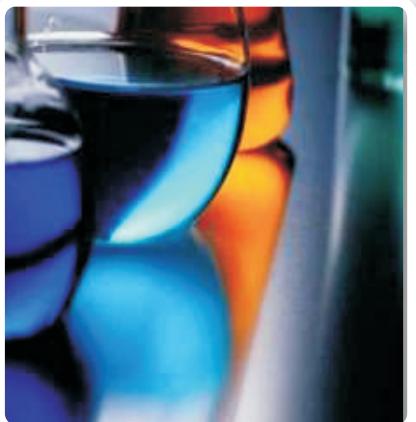

We supply commodity chemicals to multinationals, independent and indigenous oil and gas companies in Nigeria from our well-stocked warehouses in Trans-Amadi Industrial Area of Port-Harcourt, with full range of commodity products covering the following applications:

- Methanol
- Butyl Glycol
- Xylene and Toulene
- Di Ethylene Glycol (DEG)
- Tri Ethylene Glycol (TEG)
- Mono Ethylene Glycol (MEG)
- Acids such as Hydrochloric, Acetic and Citric Acid
- Chlorides such as Potassium, Ammonium and Calcium Chlorides

## SUPPORTING LOCAL DRILLING FLUIDS INDUSTRY

In collaboration with our Foreign Technical Partners: Brenntag Export & Deshi Chemicals, who have a long history in the manufacture and wholesale of drilling/completion fluids products and production chemicals in locations across the world. GCIL has become a major supplier of Wholesale Drilling/ Completion Fluids and Drilling Waste Management Services. Our chemicals products include, but not limited, to the following:

- i. Drilling Fluids Chemicals Additives
- ii. Completions Fluids Chemicals Additives
- iii. Stimulations Chemicals
- iv. Cementing Chemicals
- v. Production Chemicals
- vi. Commodities Chemicals
- vii. Chemicals Related Services

## CHEMICAL RELATED SERVICES

### Brine Filtration Services/ Equipment Rental:

We render Well Completion, Workovers, Well Intervention and Fluids Filtration services. We also lease equipment used for these services e.g. Filtration Units, Air compressors, Centrifugal pumps, Chemical Tanks and lots more.

### Components of the Filtration Unit

## WAREHOUSING & MATERIALS HANDLING

We offer warehousing/materials handling services from our giant warehouses located within our corporate office complex in the heart of Trans Amadi, Port Harcourt, with 24hours constant electricity supply in a well secured environment. We are in a position to support our clients by ensuring that their products and materials are handled in line with the industry best practices.

## OFFSHORE LOGISTICS

We are representatives to HOOVER FERGUSON (US) Limited, one of the world's leading suppliers of specialist engineering cabins and global leaders in design, manufacture and sale of offshore Cargo Carrying Units (CCU's), used for the transportation of materials and equipment; and Chemical Tanks used in the transportation of chemicals to offshore oil & gas locations.

## RENTAL & SALES OF EQUIPMENT

Working in relationship with Hoover Ferguson, we are in a position to rent, lease or sell equipment and accessories such as ISO Tanks, Pumps, Tote & offshore chemical tanks.

We also have for rent, sale or long term lease, offshore Cargo Carrying Units (CCU's) – mini containers, baskets and grits used to transport dry goods, consumables & equipment to offshore locations; provide grits storage and discharge system with extendable supports for sand –blasting, refrigerated containers for the efficient and hygienic transfer/transportation of foodstuff offshore. CCU's come in varied sizes and shapes with choices of closed or opened tops, side or front loading, enclosed containers, half-height containers, refrigerated containers, cargo baskets, etc depending on clients' requirement. All equipment designed and constructed in accordance with DNV 2.7-1 and EN 12079 and ISO container requirements for offshore activities.

These units are subject to independent certification.

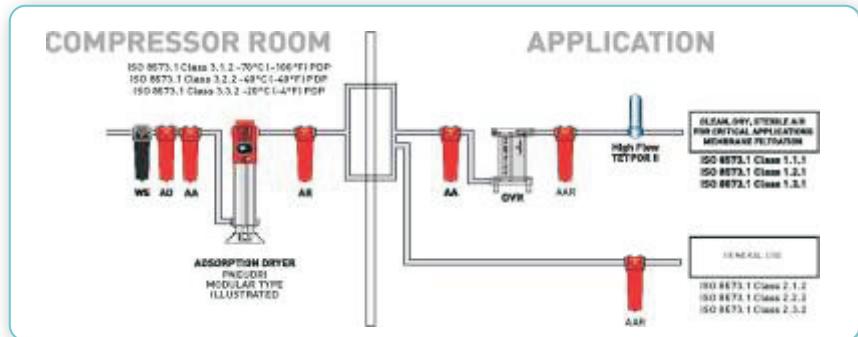

## MAINTENANCE

With our team of well-trained Engineers and Technicians, we have the skill and required competence to carry out total refurbishing and maintenance services in Sandblasting, Spray-painting, Mechanical & Electrical maintenance of Portacabins, Containers, Baskets and Tanks.

## ENGINEERING PROCUREMENT INSTALLATION & COMMISSIONING (EPIC) SERVICES

In association with **DIOKA INTEGRATED SERVICES LTD** an OEM Agent along with other OEM representatives, we are able to carry out engineering design, procurement of materials, installation and commissioning of engineering works and provide services to both manufacturing sector and the Oil & Gas industry.

**Dioka Integrated Services Limited** is committed to supporting operations in the Oil and Gas industry by providing efficient, highly professional, economic and safe services to our clients, regardless of size or complexity of the job.

## QHSE POLICY STATEMENT

Dioka Integrated Services Limited is committed to achieving the highest standards of Quality, Health, Safety and Environment by conducting its business in a manner that protects the health and safety of its employees, and other persons affected by its operations; and to the sustainable protection of the environment by ensuring compliance to all quality and safety rules.
