COMPANY
PROFILE

ABOUT US

DIOKA INTEGRATED SERVICES LTD. was established in 2007 and registered on 1st July 2011 as a limited liability company. The company was established to enhance coverage of all the engineering needs of oil, non-oil, and gas companies (such as design/construction and maintenance of mechanical, civil, electrical, instrumentations, procurement, and general services).

DIOKA INTEGRATED SERVICES LTD. has gained vast and quality experience in Engineering and Construction. The company's scope of services is designed to the respective departments. The departments' interest is to complement each other in technical abilities and so the actual services, which **DIOKA INTEGRATED SERVICES LTD.** can provide, are far greater than the sum of its constituent departments.

For this purpose, **DIOKA INTEGRATED SERVICES LTD.** can guarantee a number of dedicated, highly skilled Engineers and Constructors capable of providing custom-designed solutions for specific problems relevant to Oil and Gas exploration and exploitations as

- Procurement and Supply Chain Management
- Electrical Installation and Sales of Electrical Materials
- Rotating Equipment Specialists
- Fabrication, Construction and Sectional Replacement
- Corrosion Prevention And Monitoring
- Chemical Injection
- Valves, Pumps and Motors Maintenance, Repairs and Procurement
